GSA: Strategically Sustainable

GSA will eliminate its impact on the natural environment and use its government-wide influence to reduce the environmental impact of the federal government. – GSA Sustainability Plan

The agency unveils ambitious plan to reduce the environmental impact of the federal government and work to eliminate its own carbon footprint. [Read the plan](#)

CONTACTS

Agency Senior Sustainability Officer

GSA Sustainability Plan

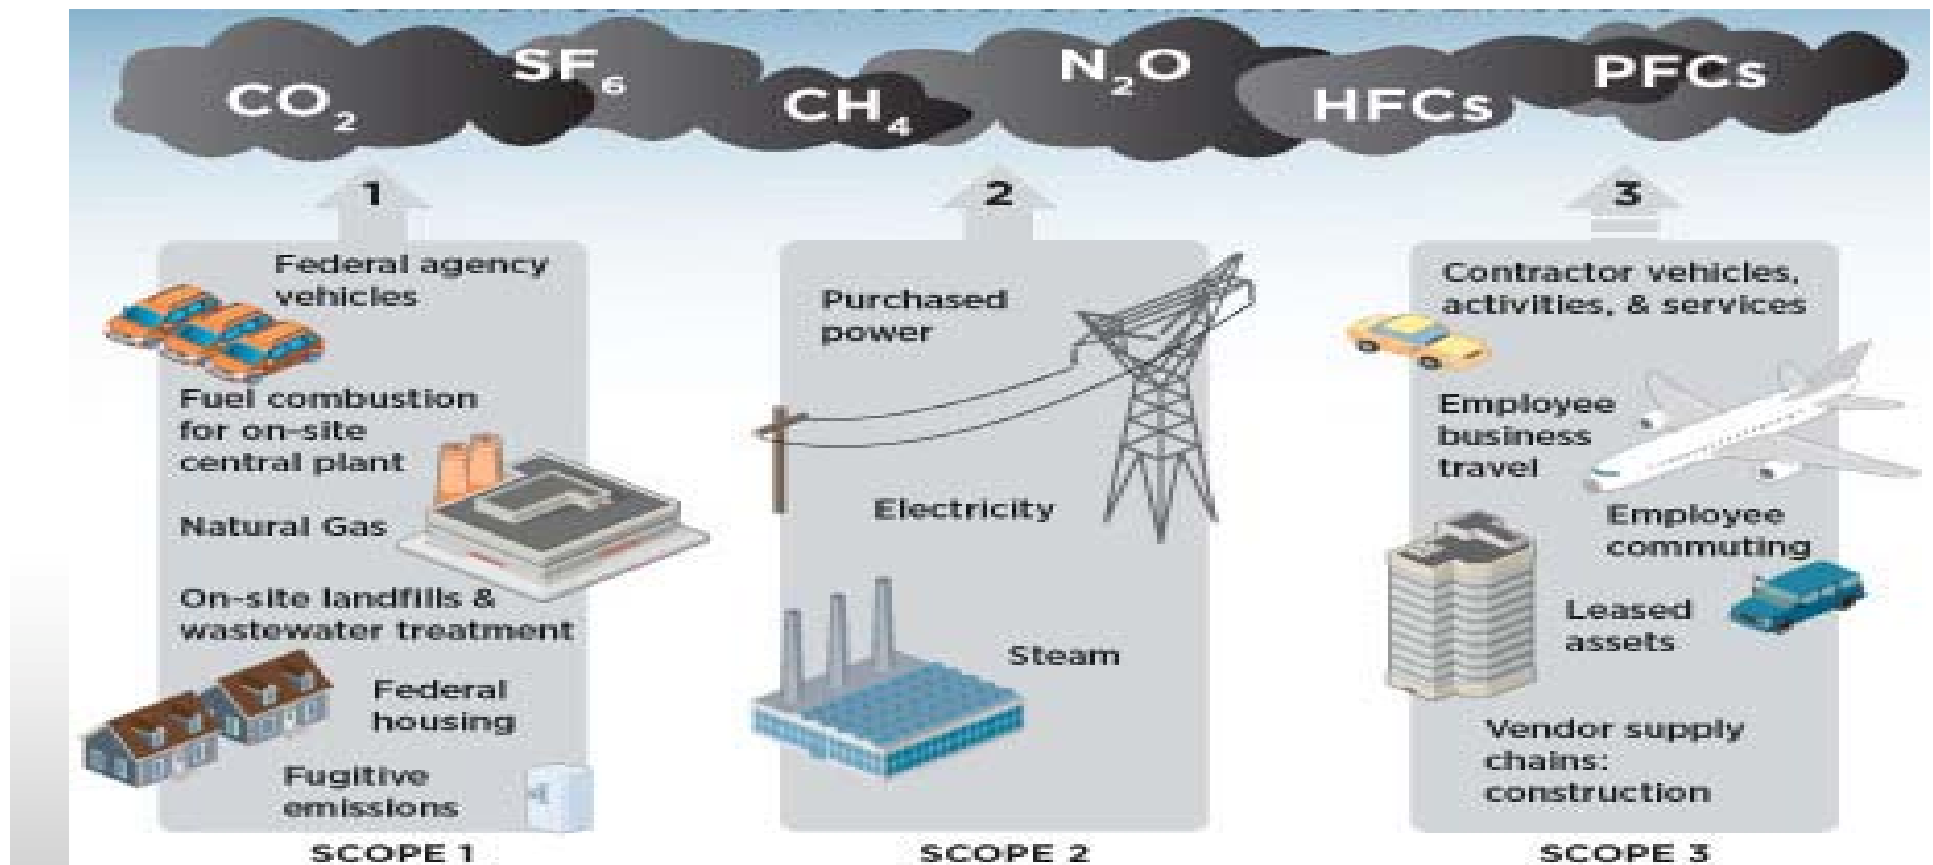

PBS Led Goals

SHOWCASE

GSA Sustainability Plan

By 2020, reduce greenhouse gas emissions associated with building operations by 30% (2008 baseline)

GSA Sustainability Plan

- By 2020
 - Reduce total energy consumption per gross square foot (GSF) by 37.5% over FY03 baseline for “covered” buildings.
 - Increase renewable energy production and procurement to 30% of annual energy consumption.

GSA Sustainability Plan

- By FY 2020
 - Reduce potable water consumption by 26% over the FY 2007 baseline.
 - Reduce industrial, landscaping, and agricultural (ILA) water consumption by 20% over FY10 baseline.

GSA Sustainability Plan

By FY15, divert 50% of non-hazardous solid waste and construction and demolition debris from landfills over FY10 baseline.

GSA Sustainability Plan

By FY15, 18% of GSA's owned buildings and leases greater than 5,000 GSF will meet the Guiding Principles for Federal Leadership in High Performance and Sustainable Buildings.

GSA Sustainability Plan

By FY11, issue updated policies and guidance that incorporate regional and local impacts into its planning activities.
